

# GETTING STARTED WITH HOPEX DOCUMENTATION

## ***Browsing online documentation***

We recommend that you use Chrome.

 **We recommend that you clear your cache through the browser options on occasion so that you can get all the latest help updates.**

To return to a page previously viewed, press the <ALT> + <Back> keys at the same time (or right-click and select **Previous**).

## ***Searching online documentation***

To obtain more precise search results, you can use the AND, OR and NOT operators and quotation marks.

 *You can combine the boolean operators; you cannot however use parentheses to create groupings.*

### **Search example**

***regulation framework***

***"Regulation framework"***

***regulation AND framework***

***regulation OR framework***

***framework NOT regulation***

### **Search Results**

Pages that contain both terms (not necessarily consecutive)

Only pages that contain the exact phrase enclosed in quotation marks

Pages that contains both words in any order (same result as searching for ***regulation framework***)

Pages that contain any of the two terms

Pages that contain "framework" but not "regulation"

## ***Other languages***

We offer the possibility to use automatic translation service through the  icon.

➤ For more information, see "[Available Documentation by Language](#)", [page 87](#).

## ***Do you have comments on our online documentation?***

Please use  at the top right corner of each page.

## ***Other information sources***

You can also access the [knowledge base](#) and browse forums in our [Community](#)

# AVAILABLE DOCUMENTATION BY LANGUAGE

Some features may not be described in the language you are interested in. However we offer the possibility to use an automatic translation service.

To launch automatic translation:

1. Click .
2. Select a language and click **Translate**.  
The translation of the page is automatically generated.

*MEGA shall assume no liability for any errors or inaccuracies of machine translation.*

By default we provide documentation in the following languages:

Documentation
